Identity-Driven Security Roadmap

In today's fast-paced environment, it is critical for organizations to establish a common and secure identity infrastructure. Knowing how to optimize identities across your organization is key to enabling end users to work anywhere, on any device, while protecting corporate data.

This assessment and roadmap discussion will include:

User Lifecycle Management	Authoritative source(s), business processes, workflows
Authentication & Identity Proofing	Single sign-on, passwords, multi-factor authentication
Self-Service Capabilities	Password resets, group management, user profile management
Role Management	Roles-based access control, privileged account management
IT Security for the Hybrid Identity	Separation of duties, auditing and reporting, incident reporting
Enterprise Mobility Strategy	BYOD, device management, application management
Cloud Application Management	Enablement, integration, migration, single sign-on
Corporate Data Protection	File encryption, multi-factor authentication, conditional access
External User Strategy	Management of partners, customers and contractors, federation

Microsoft

IDENTITY-DRIVEN SECURITY ROADMAP is delivered by a senior consultant to help your organization plan its longterm identity and access strategy. **It includes:**

· Review of your strategic direction and business objectives,
· Overview of Microsoft's approach to hybrid identity, enterprise mobility and security;
· Hosted breakout discussions with your departments to better understand business, priorities, processes and workflows, key initiatives and challenges;
· Evaluation of current and planned infrastructure;
· Development of a hybrid identity framework and executable roadmap designed to help reach your hybrid identity, enterprise mobility and security objectives; and
· Presentation of findings and recommendations, overview of what Avaleris can do to help you achieve your goals.

AVALERIS SERVICES APPROACH

We believe that an in-depth understanding of business objectives and continuous optimization is the key to client success. We do not only deploy software, we seek to understand where your organization is headed and what success means to you. Then, we make sure you achieve this with technology adoption support and continued check-ins to ensure that you are meeting all goals and gaining the most value out of the technology investment.

This packaged service offering covers the PLAN stage of our client engagement process. You can further count on us to support you through the deployment of your identity-driven security architecture, project launch, and ongoing adoption optimization.

PLAN	DEPLOY	ADOPT	OPTIMIZE
Identity & access management is a complex mission-critical business imperative. Leveraging deep industry knowledge, our thought leaders work strategically with your team to build your IAM blueprint.	Our specialized consultants work hand in hand with your team to define, design, develop, test, and deploy your tailored solution. We ensure we are aligned with your team's schedule and objectives.	Our team helps you start off on the right foot by providing the training, tools, support, and expertise that you needs to ensure successful adoption in the organization. We help your team see business value sooner.	Our expert coaches implement a structured, ongoing evaluation and optimization process to ensure continued success of the solution and to help you meet evolving business needs.

ESTIMATED EFFORT

14 days. Final Statement of Work details will be mutually agreed upon by the Client and Avaleris.

AVALERIS VALUE PROPOSITION

As a niche consulting firm focused exclusively on hybrid identity, enterprise mobility, and security, we are the trusted advisor to hundreds of Microsoft's largest private and public sector clients. Avaleris helps improve business agility and security in the way these organizations manage identities, devices, and cloud applications.

Avaleris clients benefit from our consultants' extensive deployment experience, deep technical knowledge of Microsoft products, as well as their unrelenting focus on client success.
