O365 Enablement

O365 is Microsoft's productivity platform that allows you and your organization to work more effectively with tools for collaboration across teams, platforms and devices. Maximize your investment by leveraging the cloud capabilities and benefit from the ease of use of products like OneDrive, SharePoint Online, Skype for Business and Azure AD without experiencing a large disruption to your operations.

The O365 Enablement service offering includes a review and recommendations based on your specific needs while transitioning to the cloud. We will address deployment and exchange migration plans, and will improve your security posture, ensure continuous compliance and take full control of Office 365, Azure AD and hybrid AD. This service offering allows your organization to securely and seamlessly migrate your production tools based on your information architecture.

As part of the O365 Deployment and Exchange Migrations, our consultant will address elements such as:
- User provisioning and de-provisioning processO365 license management
- Single Sign On (SSO) to O365
- O365 Access Control (Group Management)
- Exchange migrations or hybrid scenarios
- How your organization is using O365 from a business perspective; and
- Current and future security and productivity goals.

The O365 Enablement from Avaleris is delivered by a Senior Identity and Security Consultant with a deep knowledge of identity and access management, enterprise mobility, and the newest Microsoft products.

It includes:

- O365 deployment, envisioning and requirement gathering;
- Information gathering and review of your current architecture;
- O365 deployment and migration;
- Security recomendations;
- Detailed migration planning;
- O365 deployment and migration;
- Support and guidance through your migration;
- Detailed communication strategy for internal adoption and employee onboarding; and
- Operational transition and final adoption for your organization.

AVALERIS SERVICES APPROACH

We believe that an in-depth understanding of business objectives and continuous optimization is the key to client success. We do not only deploy software, we seek to understand your organization's objectives and what success means to you. Then, we make sure you achieve this with technology adoption support and continued check-ins to ensure that you are meeting all goals and gaining the most value out of the technology investment.

This packaged service offering covers the PLAN, DEPLOY and ADOPT stages of our client engagement process. You can further count on us to support you through the deployment and migration of your O365 project and beyond as we work with you to ensure that it is adopted and the value is realized.

PLAN
Identity & access management is a complex mission-critical business imperative. Leveraging deep industry knowledge, our thought leaders work strategically with your team to build your IAM blueprint.

DEPLOY
Our specialized consultants work hand in hand with your team to define, design, develop, test, and deploy your tailored solution. We ensure we are aligned with your team's schedule and objectives.

ADOPT
Our team helps you start off on the right foot by providing the training, tools, support, and expertise that you needs to ensure successful adoption in the organization. We help your team see business value sooner.

OPTIMIZE
Our expert coaches implement a structured, ongoing evaluation and optimization process to ensure continued success of the solution and to help you meet evolving business needs.

ESTIMATED EFFORT
Final Statement of Work details will be mutually agreed upon by the Client and Avaleris.

AVALERIS VALUE PROPOSITION

As a niche professional services firm focused exclusively on hybrid identity, enterprise mobility, and cloud security, we are the trusted advisor to hundreds of Microsoft's largest private and public sector clients. Avaleris helps improve business agility and security in the way these organizations manage identities, devices, and cloud applications.

Avaleris clients benefit from our consultants' extensive deployment experience, deep technical knowledge of Microsoft products, as well as their unrelenting focus on client success.
