

O365 Security Assessment

Securely deploy O365 in your environment

Organizations are undertaking Digital Transformation initiatives to enhance their internal and external operations, and are doing so by leveraging cloud technologies such as Office 365 and Microsoft Azure. Microsoft has created a robust set of security technologies and capabilities within O365 and Azure Active Directory Premium. Avaleris can help you assess if you are taking full advantage of these capabilities to secure your information assets.

The Avaleris O365 Security Assessment is a Security Review performed in accordance with Industry Best Practices that includes recommendations to improve your security posture and to address security issues that are discovered as part of this review.

As part of the O365 Security Assessment, our consultant will address elements such as:

- How your organization is using O365 from a business perspective;
- High level understanding of your documents and their sensitivity;
- Your security posture and security scorecard;
- Current and future security and productivity goals ; and
- Relevant threat scenarios applicable to your business.

The O365 Security Assessment from Avaleris is prepared by a CISSP-certified senior consultant with a deep understanding of cloud and on-premises security technologies and the newest Microsoft technologies.

It includes:

- A security assessment calculated by the Microsoft Security Scorecard
- A vulnerability analysis and evaluation of level of risk based on industry statistics;
- Security control and best practice recommendations based on the assessment;
- Recommendations to address vulnerabilities, security weaknesses, or other security related issues discovered during the assessment;
- Recommendation on how to secure your O365 deployment.

AVALERIS SERVICES APPROACH

We believe that an in-depth understanding of business objectives and continuous optimization is the key to client success. We do not only deploy software, we seek to understand your organization's objectives and what success means to you. Then, we make sure you achieve this with technology adoption support and continued check-ins to ensure that you are meeting all goals and gaining the most value out of the technology investment.

This packaged service offering covers the **OPTIMIZE** stage of our client engagement process.

PLAN

Identity & access management is a complex mission-critical business imperative. Leveraging deep industry knowledge, our thought leaders work strategically with your team to build your IAM blueprint.

DEPLOY

Our specialized consultants work hand in hand with your team to define, design, develop, test, and deploy your tailored solution. We ensure we are aligned with your team's schedule and objectives.

ADOPT

Our team helps you start off on the right foot by providing the training, tools, support, and expertise that you need to ensure successful adoption in the organization. We help your team see business value sooner.

OPTIMIZE

Our expert coaches implement a structured, ongoing evaluation and optimization process to ensure continued success of the solution and to help you meet evolving business needs.

ESTIMATED EFFORT

3 - 5 days. Final Statement of Work details will be mutually agreed upon by the Client and Avaleris.

AVALERIS VALUE PROPOSITION

As a niche professional services firm focused exclusively on hybrid identity, enterprise mobility, and cloud security, we are the trusted advisor to hundreds of Microsoft's largest private and public sector clients. Avaleris helps improve business agility and security in the way these organizations manage identities, devices, and cloud applications.

Avaleris clients benefit from our consultants' extensive deployment experience, deep technical knowledge of Microsoft products, as well as their unrelenting focus on client success.
