

Are You Exposed? How Canadian Companies Can Reduce GDPR Risk.

What you don't know CAN hurt you. Protect your enterprise with the Avaleris General Data Protection Regulation (GDPR) Technology Readiness Assessment.

Many Canadian companies will be actively (or passively) in breach of the General Data Protection Regulation (GDPR) when it comes into effect in May 2018.

Even if:

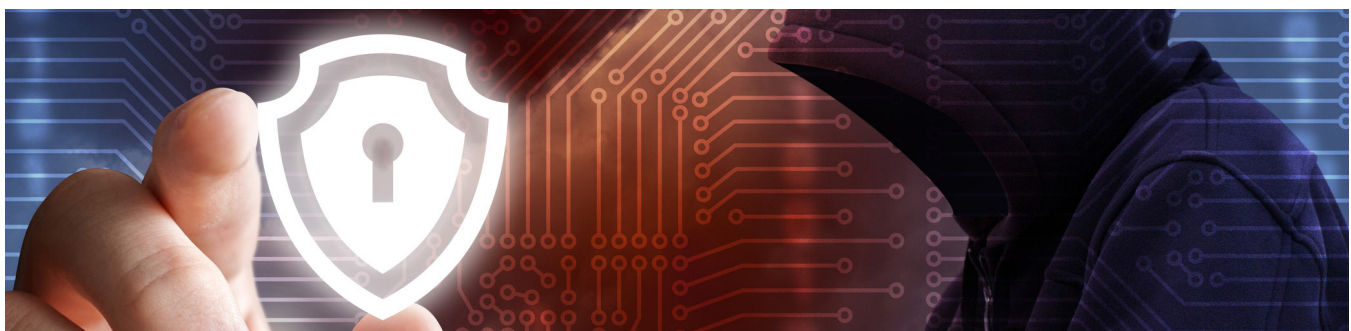

- You don't have a physical location in Europe
- You don't actively seek to do business in Europe
- You are fully compliant with Canadian Data Privacy regulations

the new GDPR regulations will probably impact you.

What Is GDPR?

The General Data Protection Regulation (GDPR) is being implemented to strengthen and unify data protection within the European Union (EU). Because the GDPR will have a global impact, Canadian companies need to understand GDPR principles and what these mean for their own corporate security and compliance.

Avaleris is one of only a handful of consultants with the depth and breadth of IT security expertise to offer this level of assessment. We are also one of only a few Microsoft partners in the world capable of delivering this offer. Put our security skills to work for you.

YOUR AVALERIS GDPR ASSESSMENT INCLUDES:

- Full review of all Microsoft* technologies and associated processes;
- Full GDPR Readiness Assessment Report
- Executive PowerPoint Presentation with Recommendations
- Work Plan to implement recommendations

*Other technologies may be added as required.

PROJECT INITIATION

- Kick-off Meeting
- Confirm Project Scope and Timetable
- Identify System Reviews and Interviews
- Identify Documentation Reviews

INFORMATION GATHERING

- Understand your business by evaluating architectural diagrams; operating policies and procedures; security safeguards; existing statements of sensitivity, privacy impact assessments; and sensitivity classification guidelines

GDPR GAP ANALYSIS & RECOMMENDATION

Analyze information collected as it relates to the GDPR. We will examine:

- how the PII information is being handled, stored and accessed;
- potential vulnerabilities;
- modifications necessary for compliance.

GDPR TECHNOLOGY READINESS PRESENTATION & PROJECT COMPLETION

- Deliver the final GDPR Technology Readiness Assessment Report;
- Present to executive and address questions;
- Explore go forward options and alternatives.

GDPR has broadened the scope of corporate responsibility beyond other countries' data privacy regulations. You may unwittingly be exposing your company and individuals in your company to non-compliance and the resulting financial penalties
