

Your Most Comprehensive Security Solution

Did you know the average cost of a data breach in Canada is \$5.78 million, or \$255 per lost or stolen record? Many breaches are the result of employee error rather than malicious attacks. With mobile devices, multiple access points and data stored both on premises and outside your organization, a simple mistake can cost you millions.

Securing Your Organization: Where to Start?

Relying on a single product or generic security solution leaves your organization at risk and disrupts your employees and operations. Instead, you need a complete and holistic security strategy that balances security with productivity and collaboration. How can you achieve this? With a deep understanding of the cyber threat landscape, your organization's unique security posture and the solutions available to you.

The rise of remote work and Cloud technology means that modern workplaces need a comprehensive security solution that enhances performance and teamwork.

A Powerful Security Suite

Avaleris has an intimate understanding of Microsoft's security solutions and how they simultaneously provide enhanced user experience, maximum data protection and complete IT control. In our Microsoft Advanced Security Briefing, you'll receive a comprehensive understanding of your current security posture and a strategy outlining how the Microsoft Security Suite of products can transform your business.

Our Microsoft Advanced Security Briefing covers:

Threat Landscape Overview

Gain valuable insight into the current cyber threat landscape presenting an imminent risk to organizations across the globe. The more you know about data breaches and cyber security, the better prepared you'll be to successfully protect your organization.

M365 Security Technologies

Receive a detailed introduction to Microsoft 365 Security Technologies, which brings together Office 365, Windows 10 and Enterprise Mobility and Security. This comprehensive, intelligent solution is built on the foundation of a Secure Productive Enterprise and empowers teams to work together, securely.

You'll learn how Microsoft 365 excels in security and compliance, enables you to protect personal data from loss or unauthorized access and disclosure, and helps you to comply with new standards for transparency, accountability and record keeping.

O365 Security

Discover how your organization can use O365 Security to empower your users in a secure environment. O365 is a collaborative, insightful and user-friendly solution that will enable users to be productive on an integrated and unified platform.

Enterprise Mobility and Security (EMS)

Learn how EMS integrates five of Microsoft's robust security solutions in a single suite of products, including Azure Active Directory Premium, Microsoft Intune, Azure Information Protection, Microsoft Cloud App Security and Advanced Threats Analytics. Designed for modern workplaces with multiple devices and Cloud technologies, this comprehensive solution increases productivity and collaboration while providing maximum IT security and control.

Why Avaleris?

Avaleris is a trusted advisor to hundreds of Microsoft's largest private and public sectors. We go beyond solution deployments. Our team develops an in-depth understanding of your business objectives to ensure you reach your goals and gain the most value from your technology investments. Through strategic planning, well-executed deployments and a focus on user adoption, Avaleris delivers tailored solutions that deliver maximum ROI.

Avaleris clients benefit from our extensive deployment experience, deep technical knowledge of Microsoft products and commitment to ongoing client success.

Avaleris focuses exclusively on hybrid identity, enterprise mobility, and cloud security, enabling businesses to improve their agility and security while enabling employee productivity and collaboration.
